CAREER OBJECTIVE

Currently working as a **Marketing Research Analyst Intern at Agilent Technologies** (Jun – Dec 2026). Integrated M.Sc. Biotechnology student with a strong foundation in applied biotechnology, pharmaceutical operations, and system-driven execution. Demonstrated ability to deliver high-impact outcomes, including managing **Rs. 7 crore finances across 150+ events** and executing **952 successful blood donations within ~7 hours** (university record). Hands-on experience with analytical instruments (GC, HPLC, UV-Vis) and deep familiarity with pharma/biopharma value chains. Seeking full-time roles in pharmaceutical operations, healthcare systems, biotechnology, and business development where scientific acumen and cross-functional leadership drive measurable outcomes.

EDUCATIONAL QUALIFICATION

Vellore Institute of Technology (VIT), Vellore <i>Integrated M.Sc. Biotechnology</i> / CGPA: 9.04	2022 – 2027
Sri Chaitanya Junior College, Vijayawada <i>Intermediate (BiPC)</i> / 96%	2019 – 2021
Masters EM High School <i>Secondary School Certificate</i> / GPA: 10.0	2018 – 2019

SKILLS

Molecular Biology: PCR; Agarose Gel Electrophoresis; SDS-PAGE; Vector Ligation; DNA Isolation & Quantification; Restriction Enzyme Digestion.

Analytical Techniques: TLC; HPLC; UV-Vis Spectroscopy; GC (exposure); Bradford Protein Estimation; Antioxidant Assay (DPPH, ABTS); Lipid Estimation; Carbohydrate Estimation (Anthrone); Chromatography; Titrations; RBC & WBC Counting; GLP.

Microscopy & Cell Biology: Light Microscopy; Scanning Electron Microscopy (SEM); Cell Culture; Bacterial Culture; Media Preparation; Sterilization & Autoclaving; Plant Tissue Culture.

Bioinformatics: UniProt; NCBI BLAST; PDB; KEGG; Primer-BLAST; REACTOME; STRING; Ensembl; GEO2R; Vaccine Design; Drug Repurposing APIs.

Business, Management & Operations: Operations Execution; Financial Planning; Budget Management; Business Development; Market Research; Campaign Management; Leadership; GST & TDS Compliance; Vendor Negotiation; Procurement.

AI & Systems Development: AI Tool Development; Prompt Engineering; API Integration; Automation (Google Apps Script); Workflow Design.

Clinical & Data Analysis: MS Excel (Advanced — pivot tables, financial tracking, dashboards); Google Sheets Automation; Real-time Data Visualization; Clinical Data Handling; GCP; ICH Guidelines; Documentation Systems.

Web & Full-Stack Development: Supabase (Auth, DB, Storage); MongoDB; Vercel; REST APIs; QR Code Generation; Payment Gateway Integration (GPay, QR).

App Development & Tools: Android Studio; React Native; VS Code; Figma; MS Office Suite; Google Workspace; Graphic design; Google Apps Script; Antigravity; Video Editing.

Languages: English (Fluent); Telugu (Native); Tamil (Conversational); Hindi (Basic).

RESEARCH EXPERIENCE

Master's Thesis: Sustainable Aquafeed from Fruit Peel Waste — VIT Vellore (SBST) 2025 – 2026
Supervisor: Dr. R. Sudhakaran, Department of Integrative Biology

- Developed antioxidant-rich aquafeed formulations using **orange and pomegranate peel waste** as sustainable

agro-industrial inputs, reducing reliance on fishmeal-based commercial feed.

- Conducted comprehensive biochemical assays including **protein estimation (Bradford, BCA, Lowry)**, **carbohydrate estimation (Anthrone)**, **lipid extraction**, and **antioxidant evaluation (DPPH)** for nutritional profiling.
- Identified Bradford assay interference due to polyphenol content; evaluated feed stability, palatability, and floatability under experimental conditions.
- Evaluated **binder performance (tapioca starch vs alginate)** and **water stability (>24h retention)**.
- Demonstrated functional feed performance and scalability potential for industrial aquaculture applications; identified **3 viable commercialization pathways** through market landscape analysis.

Biotechnological E-Waste Leaching System — VIT Vellore

Sept 2025

Supervisor: Dr. Anand Prem Rajan

- Designed a microbial bioleaching system for heavy metal recovery from electronic waste streams, integrating bioreactor processing, electrolysis, and material recovery workflows.
- Proposed real-time monitoring and plastic upcycling modules for circular economy applications.
- Presented findings at **National Entrepreneurship Day (EntrepreNATION)** as part of innovation showcase.

MANUSCRIPTS

- *Transcriptomic & Immunological Impact of Synthetic Food Colorants and Additives on the Human Gut.* (2026, Under Preparation)
- *Organic, Innovative, and Eco-friendly Feeds for Aquaculture.* (2026, Under Preparation)

INTERNSHIP EXPERIENCE

Agilent Technologies — Marketing Research Analyst Intern

Jun – Dec 2026 (Ongoing)

- Conducting market research and competitive intelligence analyses to evaluate trends, customer profiles, and product positioning in the analytical instrumentation market.
- Analyzing business development metrics and market data to generate insights that support lead generation and strategic marketing campaigns.
- Supporting cross-functional initiatives to align biotechnology industry requirements with analytical instrumentation solutions.

Glory Pharma Chem India Pvt Ltd — Industrial Intern

Jun – Jul 2025

- Assisted in **GMP-based API intermediate manufacturing** workflows including reactor processing, filtration, centrifugation, and drying operations. [Report]
- Performed QC analyses including moisture content, pH testing, and carbon testing; gained hands-on exposure to **Gas Chromatography (GC)** instrumentation.
- Followed SOPs for equipment cleaning and batch documentation; gained experience in QA, EHS, and pharmaceutical compliance systems.

GSK Technologies Pvt Ltd — Industrial Intern

May – Jun 2024

- Studied full-scale **paper manufacturing processes** from pulping through drying, rolling, and packaging; observed industrial equipment including pulper, boiler, heat exchanger, and paper machine. [Report]
- Performed QC analyses including GSM measurement, burst factor testing, and pulp quality assessment.
- Analyzed recycling and water reuse systems, identifying opportunities for sustainable production improvement.

TECHNICAL PROJECTS

Healthcare Campaign Management System

4 Camps | 2023 – 2025

- Managed **1,104+ registrations** resulting in **952 successful donations in ~7 hours** (86% conversion rate) — highest university record.
- Executed multi-channel digital outreach via social media, campus networks, and hospital partnerships; reduced manual coordination by ~60%, saving **120+ man-hours per camp**.

NSS Bus Attendance Automation System

Automation | 2024 – 2025

- Automated attendance tracking for **400+ volunteers** across NSS rural camp operations, improving logistics accuracy by **85%** and reducing manual errors significantly.
- Streamlined data collection and reporting workflows, enabling real-time visibility into volunteer deployment and transport coordination.

Drug Repurposing Tool

Bioinformatics

- Integrated bioinformatics APIs to streamline drug repurposing workflows and improve candidate identification

efficiency; created user-facing documentation and demo materials for stakeholder presentations.

Token Generation System

Automation

- Built a customizable QR/barcode-based token generation platform supporting bulk automated operations for institutional events.

Cake Ordering Platform

E-Commerce & Marketing

- Developed an end-to-end e-commerce platform with automated pricing algorithms, payment integration, and admin analytics dashboard — skills directly transferable to digital commerce operations.

Dev-Vault — Secure Messaging Platform

Full-Stack Development

- Built a secure, anonymous chatting platform with ephemeral messaging and vault-based access control for private developer communication.

Budget Tracker App

Mobile App Development

- Developed a personal finance tracking application enabling users to log income, expenses, and visualize spending patterns through a clean mobile interface.

LEADERSHIP EXPERIENCE

Finance Manager — Riviera'25 & Riviera'26 Cultural Fest (VIT)

2025, 2026

- Managed end-to-end finances for **150+ events over 4 days**, overseeing a total budget of **Rs. 7 crore**.
- Handled vendor and artist payments; performed **GST, TDS, and profit/loss analysis** using structured Google Sheets financial systems.
- Ensured transparency, cost control, and efficient resource allocation across all fest operations.

Blood Donation Camp In-Charge — NSS VIT

4 Camps / 2023 – 2025

- Executed healthcare camps with **1,104+ registrations and 952 successful donations**, delivering record-breaking performance under strict time constraints.
- Coordinated with hospitals and 950+ donors to ensure smooth end-to-end operations.

NSS Special Rural Camps

4 Villages / 7 Days Each / 400+ Volunteers

- Progressed through NSS roles: Volunteer (Thiruvallam) → Coordinator (Vandranthangal) → Organizer (Anaicut) → Advisory, demonstrating consistent leadership growth.
- Managed logistics, team coordination, and field operations across 4 rural camps, overseeing 400+ volunteers per camp.
- Designed and executed community development programs with measurable social impact across all village sites.

Secretary, Board Member — NSS VIT

2024 – 2025

- Led multiple social initiatives, events, and operational programs with measurable community impact at the institutional level.

Purchase Coordinator & Broadcasting Volunteer — Gravitas'24

2024

- Handled procurement, vendor negotiations, and logistics for the university's annual technical fest.
- Supported live broadcasting operations during fest coverage as part of the media team.

Student Organiser — VIT Biosummit (SBST Flagship Event)

2023 – 2024

- Led cross-functional teams of **50+ members** across outreach, documentation, design, technical, and social media functions for Biosummit 2024 and Biosummit 2023, ensuring coordinated and efficient event operations.

ADDITIONAL EXPOSURE

Clinical Data Management Program

VIT Vellore by BCRI

- Completed structured training in clinical data management principles, data handling workflows, and regulatory compliance frameworks (GCP, ICH guidelines).

STHREE Chemicals Pvt Ltd — Industrial Visit

2024

- Acquired practical understanding of chemical manufacturing operations, warehouse management, and quality assurance protocols.

Industry Knowledge & Market Awareness

Self-Directed Learning

- Familiar with analytical instrumentation landscape: Agilent (GC, LC, MS), Thermo Fisher, Waters, Shimadzu; understanding of pharma/biopharma QA/QC workflows and regulatory pathways.
- Tracking industry trends in sustainable biotechnology, circular economy applications, and digital transformation in life sciences marketing.

ACHIEVEMENTS

- **100% Attendance Award** — VIT Vellore 2023 | **100% Attendance Award** — VIT Vellore 2025
- **EntrepreNATION** — 2nd Prize (Entrepreneurship Competition); presented Biotechnological E-Waste Leaching System at National Entrepreneurship Day
- **Water Conservation Ideathon** — 3rd Place
- **Digital Media & Content Strategy:** Managed **TIRUPATI UPDATES** YouTube channel (1.4M subscribers) and Instagram (775K followers); executed content strategy, audience analytics, and monetization workflows.
