Tiruvallur, Tamil Nadu, India

CAREER OBJECTIVE

Integrated M.Sc. Biotechnology student (CGPA: 9.01) with a strong foundation in applied biotechnology, pharmaceutical operations, and system-driven execution. Demonstrated ability to deliver high-impact outcomes, including managing **Rs. 7 crore finances across 150+ events** and executing **952 successful blood donations within ~7 hours** (university record). Skilled in building scalable, automation-driven systems using AI tools, API integration, and data workflows. Combining biotechnology expertise with leadership, financial management, and business development capabilities. Seeking roles in **pharmaceutical operations, industrial biotechnology, healthcare systems, and business development** with long-term interest in industry-integrated applied research.

CAREER INTERESTS

Industrial Biotechnology • Pharmaceutical Operations • Healthcare Systems • Business Development • Operations Management • Industry-Integrated Applied Research

EDUCATIONAL QUALIFICATION

Vellore Institute of Technology (VIT), Vellore <i>Integrated M.Sc. Biotechnology CGPA: 9.01</i>	2022 – 2027
Sri Chaitanya Junior College, Vijayawada <i>Intermediate (BiPC) 96%</i>	2019 – 2021
Masters EM High School <i>Secondary School Certificate GPA: 10.0</i>	2018 – 2019

RESEARCH EXPERIENCE

Master's Thesis: Fruit Peel-Based Sustainable Aquafeed Development — VIT Vellore (SBST) Jun 2025 – Apr 2026

Supervisor: Dr. R. Sudhakaran

- Designed and optimized aquafeed formulations utilizing **orange and pomegranate agro-industrial waste** as sustainable alternatives to fishmeal.
- Performed comprehensive biochemical characterization including **protein (Bradford, BCA, Lowry), carbohydrates (Anthrone), lipids (Bligh & Dyer), and antioxidant activity (DPPH)**.
- Critically analyzed polyphenol interference in Bradford protein assay, proposing alternative quantification strategies for phenol-rich samples.
- Developed feed formulations (F0–F6/F9) evaluating water stability (**tapioca starch binder maintained over 24h integrity**), palatability in crab models, and floatability via hot-air puffing and CMC.
- Established a circular bioeconomy framework converting fruit processing waste into cost-effective, antioxidant-rich aquafeed for scalable aquaculture.

Multidisciplinary Biotechnological E-Waste Leaching System — VIT Vellore

Sept 2025

Supervisor: Dr. Anand Prem Rajan

- Designed a closed-loop, microbe-driven bioleaching system for recovery of valuable metals (Au, Ag, Cu, Al) from e-waste (PCBs, cables).
- Developed an integrated workflow including dismantling, microbial leaching (bioreactor), electrolysis-based recovery, and downstream material segregation.
- Incorporated real-time monitoring using inline sensing to track leaching efficiency and engineered plastic upcycling pathways into functional products.
- Designed eco-friendly alternatives to smelting, presenting a scalability model with modular bioreactors at **National Entrepreneurship Day (EntrepreNATION)**.

MANUSCRIPTS

- *Transcriptomic & Immunological Impact of Synthetic Food Colorants and Additives on the Human Gut.* (2026, Under Preparation)
- *Organic, Innovative, and Eco-friendly Feeds for Aquaculture.* (2026, Under Preparation)

INTERNSHIP EXPERIENCE

Glory Pharma Chem India Pvt Ltd — Industrial Intern

Jun – Jul 2025

- Observed and assisted in **GMP-compliant manufacturing of pharmaceutical intermediates** (Rec SA Lamivudine) involving reactor processing, filtration, centrifugation, drying, and milling. [Report]
- Participated in QC testing including moisture analysis, pH measurement, carbon residue testing, and exposure to gas chromatography.
- Assisted in equipment cleaning and SOP-based operations, ensuring contamination control and batch consistency.
- Gained exposure to QA documentation, batch records, warehouse operations, and EHS practices (waste management, effluent treatment).

GSK Technologies Pvt Ltd (Paper Mill Division) — Industrial Intern

May – Jun 2024

- Observed and analyzed the end-to-end **paper manufacturing process** including pulping, filtration, steam processing, paper formation, drying, rolling, and packaging. [Report]
- Studied operation of key industrial equipment such as pulper machines, heat exchangers, boilers, and rewinders.
- Participated in QC procedures including GSM measurement, burst factor testing, pulp consistency, and contaminant analysis.
- Examined waste management systems, including paper recycling, water treatment/reuse processes, and logistics/supply chain operations.

TECHNICAL PROJECTS

Blood Donation Management System

4 Camps / 2023 – 2025

- Managed **1,104+ registrations** resulting in **952 successful donations in ~7 hours** — highest university record.
- Reduced manual coordination effort by ~60% through real-time tracking, digital registration, and automated reporting.

NSS Bus Attendance Automation System

Automation / 2024 – 2025

- Automated attendance tracking for **400+ volunteers** across NSS rural camp operations, reducing manual errors and improving logistics accuracy.
- Streamlined data collection and reporting workflows, enabling real-time visibility into volunteer deployment and transport coordination.

Drug Repurposing Tool

Bioinformatics

- Integrated bioinformatics APIs to streamline drug repurposing workflows and improve candidate identification efficiency.

Token Generation System

Automation

- Built a customizable QR/barcode-based token generation platform supporting bulk automated operations for institutional events.

Cake Ordering Platform

Full-Stack Development

- Developed an end-to-end e-commerce platform featuring automated pricing, payment integration, and an admin management dashboard.

Dev-Vault — Secret Chatting Platform

Full-Stack Development

- Built a secure, anonymous chatting platform with ephemeral messaging and vault-based access control for private developer communication.

Budget Tracker App

Mobile App Development

- Developed a personal finance tracking application enabling users to log income, expenses, and visualize spending patterns through a clean mobile interface.

SKILLS

Molecular Biology: PCR; Agarose Gel Electrophoresis; SDS-PAGE; Vector Ligation; DNA Isolation & Quantification; Restriction Enzyme Digestion.

Analytical Techniques: TLC; UV-Vis Spectroscopy; Bradford Protein Estimation; Antioxidant Assay (DPPH,

ABTS); Lipid Estimation; Carbohydrate Estimation (Anthrone); Chromatography; Titrations; RBC & WBC Counting; GLP.

Microscopy & Cell Biology: Light Microscopy; Scanning Electron Microscopy (SEM); Transmission Electron Microscopy (TEM); Cell Culture; Bacterial Culture; Media Preparation; Sterilization & Autoclaving; Plant Tissue Culture.

Bioinformatics: UniProt; NCBI BLAST; PDB; KEGG; Primer-BLAST; REACTOME; STRING; Ensembl; GEO2R; Vaccine Design; Drug Repurposing APIs.

Business, Management & Operations: Operations Execution; Financial Planning; Budget Management; Business Development; Leadership; GST & TDS Compliance; Vendor Negotiation; Procurement.

AI & Systems Development: AI Tool Development; Prompt Engineering; API Integration; Automation (Google Apps Script); Workflow Design.

Clinical & Data Analysis: MS Excel (Advanced — pivot tables, financial tracking, dashboards); Google Sheets Automation; Real-time Data Visualization; Clinical Data Handling; GCP; ICH Guidelines; Documentation Systems.

Web & Full-Stack Development: Supabase (Auth, DB, Storage); Vercel; REST APIs; QR Code Generation; Payment Gateway Integration (GPay, QR); Next.js; HTML5; CSS3; JavaScript.

App Development & Tools: Android Studio; React Native; VS Code; Figma; MS Office Suite; Google Workspace; Canva; PowerPoint; Google Apps Script; Antigravity; Video Editing.

Programming: R; Python (basic); HTML; JavaScript.

Languages: English (Fluent); Telugu (Native); Tamil (Conversational); Hindi (Basic).

LEADERSHIP EXPERIENCE

Finance Manager — Riviera'25 & Riviera'26 Cultural Fest (VIT) *2025, 2026*

- Managed end-to-end finances for **150+ events over 4 days**, overseeing a total budget of **Rs. 7 crore**.
- Handled vendor and artist payments; performed **GST, TDS, and profit/loss analysis** using structured Google Sheets financial systems.
- Ensured transparency, cost control, and efficient resource allocation across all fest operations.

Blood Donation Camp In-Charge — NSS VIT *4 Camps / 2023 – 2025*

- Executed healthcare camps with **1,104+ registrations and 952 successful donations**, delivering record-breaking performance under strict time constraints.
- Coordinated with hospitals and 950+ donors to ensure smooth end-to-end operations.

NSS Special Rural Camps *4 Villages / 7 Days Each / 400+ Volunteers*

- Progressed through NSS roles: **Volunteer (Thiruvallam) → Coordinator (Vandranthangal) → Organizer (Anaicut) → Advisory**, demonstrating consistent leadership growth.
- Managed logistics, team coordination, and field operations across 4 rural camps, overseeing 400+ volunteers per camp.
- Designed and executed community development programs with measurable social impact across all village sites.

Secretary, Board Member — NSS VIT *2024 – 2025*

- Led multiple social initiatives, events, and operational programs with measurable community impact at the institutional level.

Purchase Coordinator & Broadcasting Volunteer — Gravitas'24 *2024*

- Handled procurement, vendor negotiations, and logistics for the university's annual technical fest.
- Supported live broadcasting operations during fest coverage as part of the media team.

Student Organiser — VIT Biosummit (SBST Flagship Event) *2023 – 2024*

- Led cross-functional execution across outreach, documentation, design, technical, and social media teams for Biosummit 2024 and Biosummit 2023, ensuring coordinated and efficient event operations.

ADDITIONAL EXPOSURE

Clinical Data Management Program *VIT Vellore by BCRI*

- Completed structured training in clinical data management principles, data handling workflows, and regulatory compliance frameworks (GCP, ICH guidelines).

STHREE Chemicals Pvt Ltd — Industrial Visit *2024*

- Acquired practical understanding of chemical manufacturing operations, warehouse management, and quality assurance protocols.

ACHIEVEMENTS

- **100% Attendance Award** — VIT Vellore 2023 | **100% Attendance Award** — VIT Vellore 2025
 - **EntrepreNATION** — 2nd Prize (Entrepreneurship Competition)
 - **Water Conservation Ideathon** — 3rd Place
-
